Today, January 6, 2021, We Patriots by the millions, have arrived in Washington, D.C., carrying banners of support for the greatest President the world has ever known.

Bit if We must...

Many of Us will return on January 19, 2021, carrying Our weapons, in support of Our nation's resolve, towhich the world will never forget!!!

We will come in numbers that no standing army or police agency can match. However, the police are NOT Our enemy, unless they choose to be!

All who will not stand with the American Patriots... or who cannot stand with Us.. then, that would be a good time for YOU to take a few vacation days.

The American Patriot

BREAKING NEWS: a film production security company based in Los Angeles received information from federal authorities that the state Capitol buildings of ALL 50 states, including California and Washington DC, are targeted to be under siege by the Proud Boys on January 17th.

EXCLUSIVE TO THE ENTERTAINMENT INDUSTRY

Important Threat Assessment Notice

Dear Colleagues:

As you know, Reel Security has been the industry leader in set security for the entertainment industry for over 20 years. During that time, we have forged countless vitally important relationships with local, state and federal law enforcement personnel. We work with these contacts on a daily basis to provide seamless services to the entertainment industry.

We communicate with our trusted law enforcement partners daily to assess threats as part of our diligence.

On Friday, January 8th 2021, Reel Security received information from a source closely connected with federal law enforcement officials that the "Proud Boys"[1] are planning armed protests at a variety of state capitol buildings throughout the country. **We have learned that this armed protest is scheduled to take place on Sunday January 17, 2021 at State Houses in many, if not all 50 States.**

Though the planned armed protests are not targeting the entertainment industry, they may affect on-location productions. We are aware of at least one production which is presently scheduled to occur at a State Capitol on Sunday January 17, 2021. We have personally contacted that production and informed them of this threat assessment.

This is a fluid situation. Due to the volatile nature of this type of protest, we are urging all productions to assess their locations and schedules for their presence on or near any Capitol Building location on or around Sunday January 17, 2021.

We remain dedicated to the safety of everyone in Reel's extended production family. As we become aware of any updates regarding this threat or any other information which we think you should be aware, we will promptly reach out.

If you have any questions regarding this letter, its contents, our analysis of this threat or anything else, please do not hesitate to contact us.

Sincerely,

Mario Ramirez
Reel Security Corporation - President/CEO

The Assembly

The initial assembly of patriots will be at the steps of the Capitol building in Washington DC, and will continue to build over the course of Saturday January 16, and, Sunday January 17, 2021. There should be a state flag, and American flag, present for each state so patriots can gather with other patriots from their home states. If multiple flags are displayed for a state, each group should walk towards each other to become one group for that state. We will gather for 2 hours each day starting at 12:00 noon so that numbers can be assessed. **If at 2:00 on Sunday 1/17 it is becomes obvious that the will to fight for America against democrat tyranny is not strong enough for the turnout to be effective, the PAFA2021 will be declared a lost cause and Joseph Biden will be allowed to be inaugurated.** The estimated number of armed patriots needed for the PAFA2021 to move forward is approximately 15,000. This number would allow a force of 4,000 patriots per location in Washington, D.C., and establish road blocks at set locations to assist in maintaining order at the lock down points. At these roadblocks, patriot

Soft Targets and Crowded Places (ST-CPs), such as sports venues, shopping venues, schools, and transportation systems, are locations that are easily accessible to large numbers of people and that have limited security or protective measures in place making them vulnerable to attack.

A friend just sent a video by a trucker saying truckers have been warned not to take long hauls, to stay close to home and out of big cities. Also said military personnel have warned their families to stay out of large cities as well.

I had seen Intel about the fbi claiming anti biden rallies were planned in each capitol city but those are confirmed false flag events and not Trump supporters.

Can any truckers here confirm or military families?

Right-wing extremists are using channels on the encrypted communication app Telegram to call for violence against government officials on Jan. 20, the day President-elect Joe Biden is inaugurated, with some extremists sharing knowledge of how to make, conceal and use homemade guns and bombs.

In the days since the Capitol attack, for example, an Army field manual and exhortations to "shoot politicians" and "encourage armed struggle" have been posted in a Telegram channel that uses "fascist" in its name.

A NOTICE TO OUR CHURCHES

While we are hesitant to raise the alarm and/or overreact, recent events compel us to inform you about what we are hearing regarding possible threats that have come to our attention. There are reports that "liberal" churches will become targets of possible attacks in the coming week, with the dates of Jan. 17 and Jan. 20 featured more prominently. We strongly encourage you to be attendant to all safety concerns for ministers and congregants, even if it means meeting in a way that is other than in person at a church building this week.

I'm feeling both homicidal and suicidal at the same time. Call to action!

STAND IN SOLIDARITY WITH THE RESIDENTS OF THE AIRTEL PLAZA HOTEL THROUGH PROJECT ROOM KEY
bit.ly/KeepAirtelOpen

@MayorOfLA @CD6Nury @SheilaKuehl @kathrynbarger @LAHomeless

1 36 54

[redacted] UPDATE: Airtel eviction has been CANCELLED for tomorrow but the future remains uncertain. Thank you all for your support and community power! We'll keep people updated on ways to support moving forward, including putting pressure on LA County Board of Supervisors to extend Project Room Key and meet demands from the residents.

1d 7 likes Reply

OUR DEMANDS

We, the remaining residents at the Airtel Plaza Hotel, **demand to be allowed to shelter-in-place** in a room.

We **demand to re-negotiate** with LA Family Housing to allow the residents to stay and extend Project Room Key until real options for housing are offered (not congregate shelter).

We **demand that you allow the remaining residents to stay** in the Airtel and keep Project Room Key open for the duration of the pandemic.

We **demand that the city and county of Los Angeles expands Project Room Key and Home Key** so more unhoused people can safely shelter-in-place and get permanent supportive housing. There is no shortage of hotels, which means there is no shortage of housing.

We **demand no evictions** during the pandemic.

Sanitation trucks with cops looming in the background every week, you think we can take our eyes off Pueblo? Hell no. We're back in 2 days on Tuesday to once again drive these evictors from the scene.

We invite you to join our neighbors & us as we stand together to once again block the sweep! Sanitation & co. won't relent & threaten displacement every week. So we'll be helping clean the zone, picking up trash & sweeping, and we'll have donuts & coffee for you.

Come be with your comrades to say NO to city-sponsored violence on our most vulnerable neighbors! SEE YOU TUESDAY AT 7 AM 😊❤️

!! In her testimony before Congress, Acting Capitol Police Chief Yogananda Pittman says militias tied to the January 6th attack have stated their desire to "blow up the Capitol and kill as many members as possible with a direct nexus to the State of the Union."

MORE 👇

National Guard soldiers nor that fencing any longer than needed.

We are actively working with a scaled down approach so that we can make sure that we address three primary variables. One is the known threat to the environment. Two is the infrastructure vulnerabilities. And that third variable being the limitations that U.S. Capitol Police knows it has as it relates to human capital and technology resources, so we are actively addressing those. If I may just add one more point. With that said, we know that the insurrectionists that attacked the Capitol weren't only interested in attacking members of congress and officers. They wanted to send a symbolic message to the nation, as to who was in charge of that legislative process.

We know that members of the militia groups that were present on January 6th have stated their desires that they want to blow up the Capitol and kill as many members as possible with a direct nexus to the State of the Union – which we know that date has not been identified. So based on that information, we think that it's prudent that Capitol Police maintain its enhanced and robust security posture until we address those vulnerabilities going forward.

As it relates to the fencing and the problems with pedestrian access, I will reach out to your office today and make sure that I lean forward by taking action, working with the House Sergeant at Arms to ensure that pedestrians and staff that need to traverse the grounds are able to do so in a safe and efficient manner.
